

# SP&S Railway Historical Society

## “World Famous Banquet Raffle – 2016 Edition”

Here’s your chance to win one of Ed Austin’s North Bank Line brass engines!! Ed has generously donated one of his HO scale SP&S Class N-5 2-8-0 locomotives to our society raffle for this year. **YOU DO NOT HAVE TO BE PRESENT TO WIN.** Tickets may be purchased in either of two ways, either at the banquet itself or by mail using the enclosed registration form. In addition to the 2-8-0 we have a donation from Bill Carter, a Proto 2000 Series HO scale H10-44 Milwaukee Road Locomotive with factory-installed DCC and sound. We are working on additional raffle prizes to go with these. As is customary, mail-in raffle tickets will be added to the raffle drawing at the end of the raffle for these two top prizes.

Here’s the description and prototype photograph from Ed’s website:

“Among the seven Northern Pacific F-1 class 2-8-0s the Spokane, Portland & Seattle Railway purchased in 1925, one was unique. So unique in fact that she was assigned to be the only member of the N-5 class as SP&S #315. Number 315’s unique features stemmed from her difficult years as Northern Pacific #79. Her troubles began in 1903 when #79 had the misfortune to be on the Wallace Branch ‘S’ trestle when a section of the trestle was taken out by a snow slide. Luckily #79 survived her 80 ft. plunge into deep snow and she was returned to service. However, her luck took a turn for the worse in 1907 when her boiler exploded near Mace, Idaho. Once again #79 was returned to service but with a new tapered boiler completely unlike any of her sister F-1’s.”

### Mail-In Raffle Entry Form – Deadline 8/29/16

Name	Address
City                      State      ZIP	e-mail and/or phone
<b><u>Number</u></b> <b><u>Description</u></b>	<b><u>Total Amount</u></b>
____ 40 Raffle Ticket bundle at \$5.00 each (chances to win brass SP&S N-5 2-8-0)	\$ _____
